34th Ohio Valley Chapter Regional Meeting Cincinnati, Ohio April 9-10, 2020

Engineering-Science-Policy, interdisciplinary solutions to complex environmental and human health challenges

The regional meeting will feature plenary sessions, networking opportunities, presentations, and posters with emphasis on interdisciplinary research on environmental and human health challenges. Presentations and posters regarding other topics in environmental engineering, toxicology, and chemistry, including environmental policy, wastewater and drinking water treatment technologies and risk assessment are acceptable. Several field trips are being planned for the Thomas More University Biological Field Station and the Cock and Bull Public House.

Location: University of Cincinnati: Tangeman University
Conference Center, 2766 UC Main Street, Cincinnati, Ohio 45221
